

PROGRESS REPORT MAY 2026

Grateful for continued support, the progress has been a blessing right from home, ministry and community transformation in a number of ways:

- Was honored to dedicate the building where the business is located, an opportunity that involved the business community, bodaboda operators, youths and families around Teremi.
- Increased hunger for fellowship triggered the community that we meet every Sunday morning 9:00 to 9:15 am for devotion before I go to my church
- Have provided accommodation to some three boys who were living in single room with their mother after their father moved on with another family
- Leased and planted one acre of land under maize and beans.

Above is summary from dedication of premise to mounting of the engine and accommodation of the boys in grade 8 and 10

Maize and beans one acre under lease to boost the cereal bulking stock

Revival at the market place; setting room for discipleship

Every Sunday meeting the boda boda and business community for 1 devotion before I go to church
